From as long as I can remember, my deep curiosity and passion for learning have driven me to explore technology with relentless enthusiasm. I constantly seek out cutting-edge tools and innovative techniques to streamline my work, and my expertise in prompt engineering helps me tackle every task with precision and a commitment to excellence. Eager to embrace new challenges, I continuously master emerging technologies and pioneer fresh solutions, always pushing beyond expectations to not just adapt to change, but to drive it.

AREAS OF EXPERTISE

Prompt Engineering

Database Optimization

AI Integrations

Full Stack Development

Workflow Automation

Debugging

Continuous Learning

Troubleshooting & Debugging

WORK EXPERIENCE

Machine learning Engineer/Intern

06/2024 - 08/2024

Machine Learning 1 limited
Lahore, Pakistan

- Acquired foundational knowledge and practical exposure to Large Language Models (LLMs) and modern AI frameworks, including integration via APIs.
- Prepared and cleaned data for AI/LLM applications, applying analytical problem-solving.
- Developed chatbot prototypes using LangChain, gaining practical experience with LLMs and embeddings.

Full Stack Developer & Data Scientist

06/2024 - Present

Devexcel IT
Lahore, Pakistan

- Architected and delivered complex projects end-to-end, including an e-learning platform and a card trading application
- Integrated OpenAI Assistant API for AI features; fine-tuned models to enhance chatbot performance and contextual accuracy.
- Developed full-stack applications using Next.js, Supabase, PostgreSQL, and MongoDB for front-end UI and backend data management.
- Automated development workflows using n8n and API integrations (including OpenAI), significantly improving process efficiency.

EDUCATION

Bachelor in Data Science

University of management and technology
08/2019 - 05/2025

Specialization: Data Science and AI
FYP: "IOT Computer Vision Robot Car"

Coursera Courses

Course Name : Natural Language Processing with classification and vector Spaces
